

IAGE Technology Innovation Award

The IAGE **Technology Innovation Award** recognizes and celebrates the researchers and/or inventors from the industry, academia, or individuals regarding their innovative ideas, products, or concepts. The Award is intended to encourage individuals or parties to think about “Technology Innovation” benefits.

Rules and Eligibility

- The technology or invention should be in the general area of green energy.
- Nomination is required. Self-nominations are not accepted.
- Nominees of any nationality are eligible.
- Previous recipients of the Technology Innovation Award are not eligible.

Administration

- The Technology Innovation Award is managed by the IAGE Honors and Awards Committee.
- The IAGE Honors and Awards Committee is responsible for soliciting and evaluating nominations and making selection decisions.
- The Award is normally presented at the annual IGEC conference.

Nomination Submission Information

The nomination should be submitted to IAGE Honors and Awards Committee. The nomination information required includes:

1. Nominee and Nominator Information: Full name, organization, mailing address, email address, telephone number.
2. Nominator statement (3 pages maximum) which include a visual abstract and a narrative of 500 to 1000 words, explaining the problem, solution, and novelty.
3. Documentation of impact (such as economic and environmental) that the technology has created.
